THE NEW LAWS OF SOFTWARE

1. APPS DIE.

The background features a dark blue gradient with faint, glowing circuit board traces in a light blue color. Scattered throughout are snippets of code in various colors (green, yellow, red, blue) and sizes, some appearing as if they are floating or being typed. The code includes comments in Spanish and Python-like syntax. A small, stylized white icon resembling a cursor or a pointer is visible in the upper left corner.

CODING IS CREATIVE PROBLEM SOLVING.

And the agents are just getting started.
